Valtris Names New Vice President, Sales

Bill Wagner brings seasoned sales and business experience to Valtris

Independence, OH – Valtris Specialty Chemicals is pleased to announce the appointment of Bill Wagner as Vice President, Sales effective March 1, 2018. Bill brings more than 25 years of sales and business expertise to the company.

Bill was most recently Senior Vice President of Foam Technologies at Innocor, Inc., where he had full P&L responsibility for the division. Prior to Innocor, he served at Dow Chemical as Global Business Director for the Acrylic Emulsions unit and previously held various other leadership roles in business and sales management. Bill also worked at Rohm and Haas in a variety of sales and engineering roles.

With his great depth of experience, Bill will oversee the sales function in the Americas and be tasked with customer development for both current and new product offerings.

“Bill is a great addition to the leadership team. He brings a depth of knowledge as well as sales and business acumen to us and we anticipate that he will be a tremendous asset to our sales efforts,” says Vice President, Commercial, Steve Hughes. “Working together with our Business and Technology teams, we believe he will help us expand our offerings and support our strategic growth plans.”

Valtris Specialty Chemicals is a leading provider of specialty chemicals, serving a variety of industries including building and construction, packaging, consumer goods, transportation and oilfield additives. Headquartered in Independence, Ohio, and with seven facilities operating globally, Valtris offers a broad and expanding product portfolio that brings quality materials and innovative solutions to customers around the world. Our technical expertise, market experience, and customer service excellence are leveraged to bring our customers value and service at the highest level. For more information, visit www.valtris.com.
